

Travel Companion App

04/10/2026 | 10:30 AM

Note Taker: Darius Rafeh

Attendees	Absentees
Allen Paul Darius Rafeh Kapil Yadav	Varun Mange
Dr. Alagar - Sponsor Adarsh Gella - Advisor	

Activities Undertaken

- Since it takes time to upload an app to Google Play/App Store we can alternatively do our final demo on the web since we are using React Native. However, the professor encourages us to make the app obtainable on Google Play or the IOS App Store.
- Not a necessity to add more features, can make sure our current features are complete and focus on deploying the app.

Next steps / TODOs

- Make sure we have MVP Ready
- Deploying App
