Note Taker: Varun Mange

Attendees	Absentees
Varun Mange Allen Paul Darius Rafeh Kapil Yadav	None
Adarsh Gella - Advisor	

Activities Undertaken

- Went through the summary of tasks accomplished this week
- Use cursor rules and skills.sh to avoid hallucination in the LLM
- Presented a demo of the onboarding/login/register workflow
- Presented the itinerary screen
- Building our own Auth vs using Supabase or Clerk
- Making offline packs - using JSON and storing it in cloudflare
- Showed our seeded database

Next steps / TODOs

- Connect the frontend with backend
- Add more screens
- Create cursor rules, and use skills
- Look into photon.komoot.io to get data for real locations
- Update Github Projects
