Note Taker: Varun Mange

Attendees	Absentees
Varun Mange Darius Rafeh Kapil Yadav	Allen Paul
Dr. Alagar - Sponsor Adarsh Gella - Advisor	

Activities Undertaken

- Talked about our progress so far
- How we are using our specs and context for AI assisted development
- Cursor rules and managing complexity with AI
- Demoed our onboarding, login, register, trip manager, and itinerary builder screens
- For Destination search, show the top matches from database and photon

Next steps / TODOs

- Look at how we can make our application a commercially viable product
- Scale the application, deployment, CI/CD, caching, optimization
- Focus on creating a complete product (not more features)
- Create an industry grade product - look from a systems perspective
